

Sidmouth Science Festival Treasure Hunt

based on the chemical elements

5 Oct 24

ENTRY FORM

Find the Chemical Elements

Everyday items are made of different chemical elements. See how many of these you can find in Sidmouth?

- 1) Think about which kind of item would contain the element and then find a shop that would sell it.
- 2) Visit the shop to find the item and Science Festival shop code on their window.
- 3) Find all the codes and examples of an object made from each element and then submit your completed form to a box in one of the venues **for a chance to win one of two £25 prizes.**

Elements to be found
Aluminium (Al)
Carbon (C)
Copper (Cu)
Helium (He)
Iron (Fe)
Lithium (Li)
Zinc (Zn)

Shops participating
